

Meet Dexter, Pipsqueak, LL Cool J and Valentine: four captivating cats in search of families to love. ARHouse Chicago found them, abandoned to starve in a dark alley. Now that's really scary.

But look at them now! Healthy, affectionate and playful, these kittens are spayed & neutered, have had their shots and now need only one thing: a safe place to call home.

So cute, it's spooky.

Now that Halloween is over and winter is here, consider adopting a cat (or two)! They'll snuggle up and keep you warm--and their love will give you something to be truly thankful for.
